## Summary

Hello, I'm Kalu David, a passionate front-end web developer. With a keen eye for design and a love for coding, I create engaging and user-friendly interfaces that bring digital experiences to life.

My journey into the world of web development began with a fascination for how websites come together, from the initial layout to the interactive elements that make them functional. Over time, I've honed my skills in HTML, CSS, and JavaScript, mastering the art of crafting visually appealing and responsive web designs.

What excites me most about front-end development is the opportunity to combine creativity with technical expertise. I enjoy turning complex ideas into clean and intuitive user interfaces that seamlessly adapt across different devices and screen sizes. Whether it's building interactive animations, optimizing performance, or ensuring cross-browser compatibility, I'm dedicated to delivering a smooth and enjoyable browsing experience for users.

When I'm not immersed in coding, you can find me exploring new design trends, staying up-to-date with the latest frontend frameworks, and collaborating with fellow developers to bring innovative ideas to fruition. As a frontend web developer, I'm committed to continuously learning and growing in this ever-evolving field, as I believe that the intersection of design and technology holds limitless possibilities.

I'm excited to contribute my skills to projects that not only solve problems but also inspire and engage users. Let's work together to create captivating digital solutions that make a meaningful impact.

Feel free to connect with me and explore my portfolio of frontend creations!

## Experience

### Frontend Web Dev Team Lead

The Just Projects
Jul 2023 - Aug 2023 (2 months)
In my pivotal role at The Just Project during the project phase, I led a dynamic team of three developers in a transformative project. Our collaborative efforts highlighted the power of innovation.

As the project lead, I facilitated open communication, fostering mutual respect and shared enthusiasm. Our diverse strengths united to realize our vision.

Our agile approach adapted to changing needs, balancing individual autonomy and alignment. I guided the team through challenges, valuing every voice.

Effective delegation and decisions maintained momentum. Our unity pushed our capabilities, exceeding expectations with innovative solutions.

Reflecting on this journey, I'm invigorated by the memories and lessons. The experience reinforced collaboration's transformative impact on my development journey.

Cheers to our achievements and future horizons.

### Jobberman Soft-Skills
Jobberman Nigeria
Aug 2022 - Sep 2022 (2 months)
At Jobberman, I had the privilege of refining my soft skills in a dynamic professional environment. Through effective communication, collaboration, and adaptability, I enhanced my ability to work seamlessly within cross-functional teams. This experience reinforced the significance of time management and problem-solving, contributing to my growth as a well-rounded professional.

### Frontend Web Development
Side Hustle Internship
Jul 2022 - Sep 2022 (3 months)
During my internship at Side Hustle, I gained valuable hands-on experience in frontend web development. This opportunity allowed me to immerse myself in real-world projects, honing my skills and knowledge in creating engaging and user-centric web interfaces. Through collaboration with the team, I cultivated a deeper understanding of modern web technologies and best practices, setting a strong foundation for my career as a frontend developer.
